

Systems Change Learning Program Calendar 2021–2022

Please check in for any event updates here at collaborationforimpact.com/learning-program

The Systems Change Learning Program is designed and led by CFI's team and network of experienced systems-change practitioners and partners. Themes of the program include how to convene collaborations for systems change; how to apply systems thinking; how to work with power, difference and conflict; and intensive workshops on Deep Collaboration, which helps find new ways for First Nations and other multicultural Australians to lead together.
