

Transforming Systems Forum – Strategy, Evaluation, and Leadership

From reform to transformational change across places, scales and systems

"When we have an agenda to change or transform systems - to make the systems we are part of more equitable - we are calling ourselves and those we work with into a different way of being and working together. One that is more systemic, learning centred, experimental and at times wisely disruptive."

Anna Powell, CEO of Collaboration for Impact

Facilitators

The two days will be facilitated by CFIs Mark Yettica-Paulson and Anna Powell alongside partners, Mark Cabaj (Here to There and Tamarack Institute) and Jess Dart, Clear Horizon.

An invitation for leaders across sectors who are working on transforming systems for a more equitable future.
